

Benefits of Virtual Reality

Highlighted Participant Responses to Qualitative Questions on Survey

Therapeutic Benefits

Occupation-Based

“Controlled environment, patient options, occupation based”

(OT-2 Participant 21)

Versatile

Emerging Technology

“[The VR Lab Simulation Experience] could be used for different interventions, could be used for several... diagnoses, could be a useful tool to incorporate interventions”

(OT-2 Participant 2)

Fun/ Immersive

Social

“[VR Lab Simulation Experience] was fun and new, it allowed for a more fun and hands on learning experience, we were able to move around instead of learning just from lectures”

(OT-2 Participant 2)
